

Registered Psychologist

Permanent Part time

Available: Immediately

JOB SUMMARY:

Work as part of a multidisciplinary team at The Asante Centre for Fetal Alcohol Syndrome, a diagnostic assessment, and family support centre for individuals and families affected by fetal alcohol spectrum disorder. We are located in Maple Ridge, B.C., primarily serving the Fraser Health Region.

Responsibilities will include conducting the neuropsychological assessment component for the diagnosis of FASD, Autism, and other complex developmental disabilities; developing recommendations for home, school and community management; conducting interviews; preparing reports; providing feedback to parents and support team. Other duties may include participating on research teams, preparing and providing presentations and workshops. Must be available to participate on outreach teams.

Qualifications:

- Doctoral degree
- Registered with College of Psychologists of British Columbia

Experience:

Experience working with children, adolescents and adults with an emphasis on special needs.

Current knowledge of the application and interpretation of a variety of educational, psychological and neuropsychological assessment instruments.

Ability to work as a member of a multidisciplinary team.

Excellent oral and written skills.

Experience in Fetal Alcohol Syndrome is desirable.
